Mirror, Mirror

Subjects Covered: Preventing unwanted reflections; Grab shots from a car or bus; Histograms; High Dynamic Range

Preventing unwanted reflections

- Turn off your flash
- Look for unwanted reflections
- Put your lens close to the window
- Shoot from an angle

Grab shots from a car or bus

- Increase ISO
- Increase Shutter Speed
- Try burst mode
- Use a photo editing program

Histogram:

- A graphical representations of the highlights and shadows in your image
- If pixels are all bunched at one end, reset the camera and reshoot the image
- Make sure that the highlights and/or shadows do not blow out by spiking at the edges

High Dynamic Range:

- Set AEB to +/-2
- Set to Aperture Priority
- Set camera mode to burst
- Use a photo editing program such as Photomatix to process the pictures
